Introduction

Multi-Chain Interoperable Dex With In-Built Trading Tools & Rewards

The crosswise platform intends to unify multiple chains, internet technologies & trading tools to give users, enterprises, and organizations the seamless capacity to 'plug-and-play' on an open internet. With our Interoperable DNA coupled with trader tools, this is the one-stop solution to all your DeFi needs.

Industry Challenges

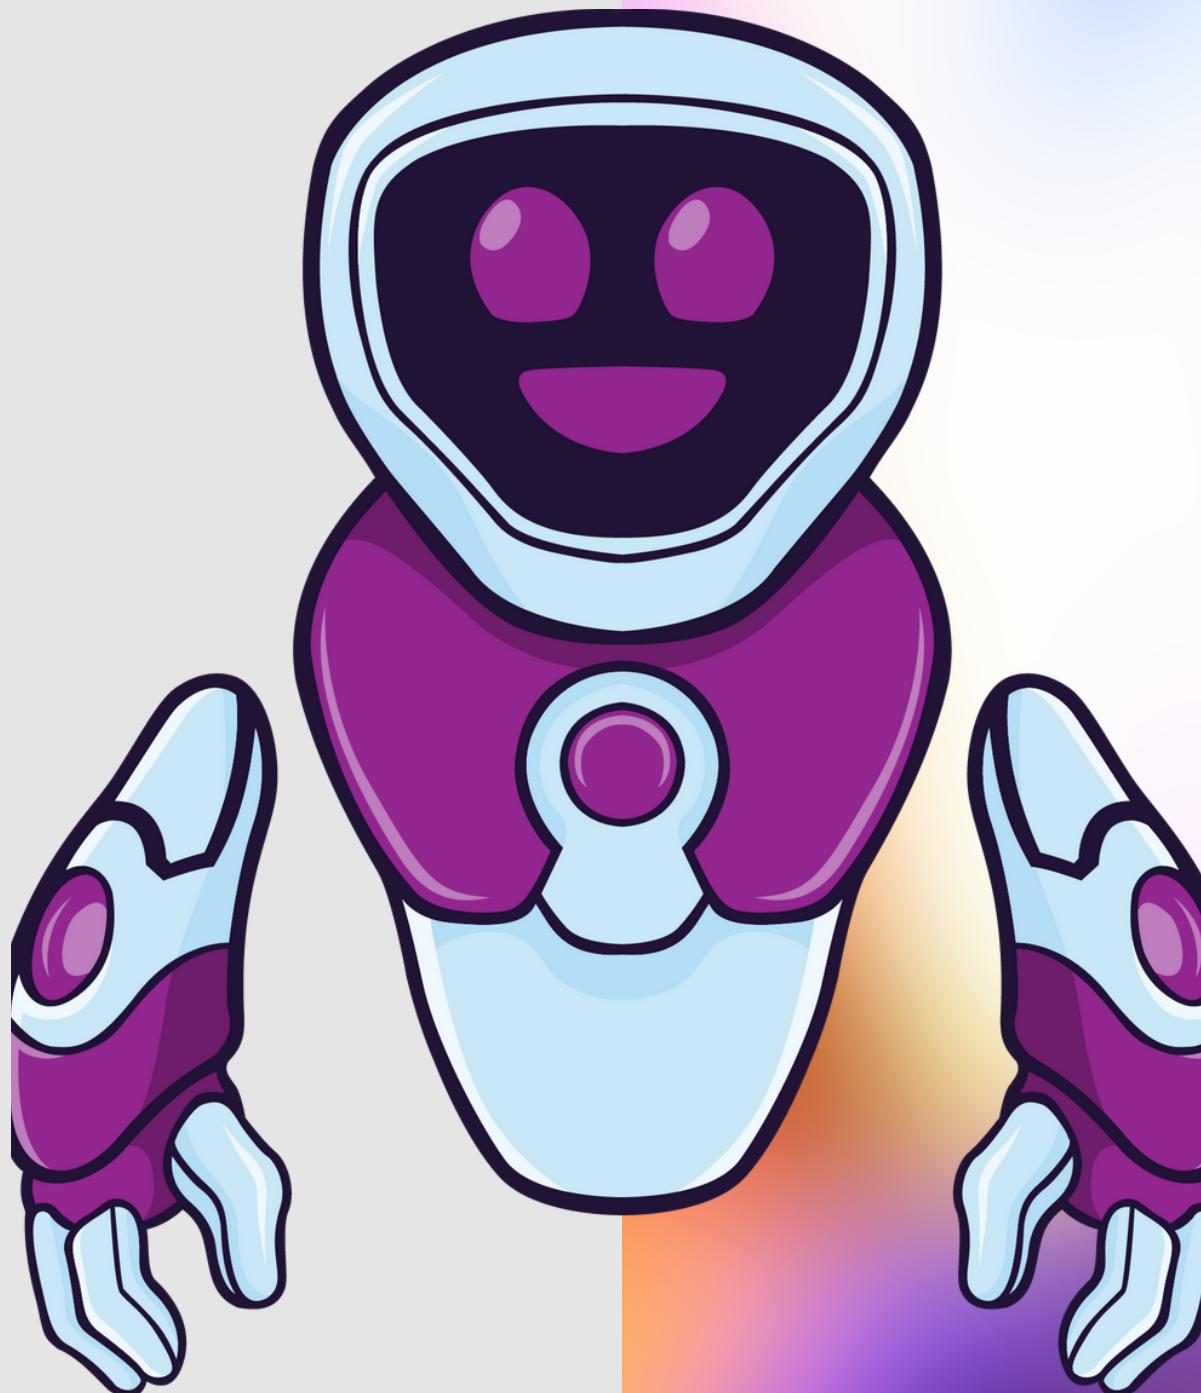

| Key Bottlenecks of the Industry

- Lack of cross-blockchain communication
- Gas fee & scalability issues of the ETH network
- Bot Attacks on pools & market sentiments
- Lack of premium trader tools in the DEX environment

crosswise

Products & Solutions

- DEX Platform with spot & limit orders
- Launchpad Platform for new projects
- Incubation support for DeFi
- Gasless Mode to save transaction fees
- Mass Harvest & Staking
- Bot Protection
- Premium Trader tools & UI
- Multi Chain Support
- High wallet support
- User support ticket system

SWOT

STRENGTHS

- Leverages advanced technology & solutions
- Gasless mode
- Mass Harvest & Staking
- Bot Protection
- Incubation & Launchpad support for DeFi ecosystem
- Strong backgrounds of advisors & teams

WEAKNESS

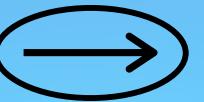

- The product & service belongs to a very new high-risk DeFi niche.
- Comparative lower trade volume than traditional exchange (CEX)

OPPORTUNITIES

- Offers an umbrella of products for the DeFi ecosystem, for both users & project owners.
- Gasless Mode will give rise to new use cases for DeFi ecosystem.

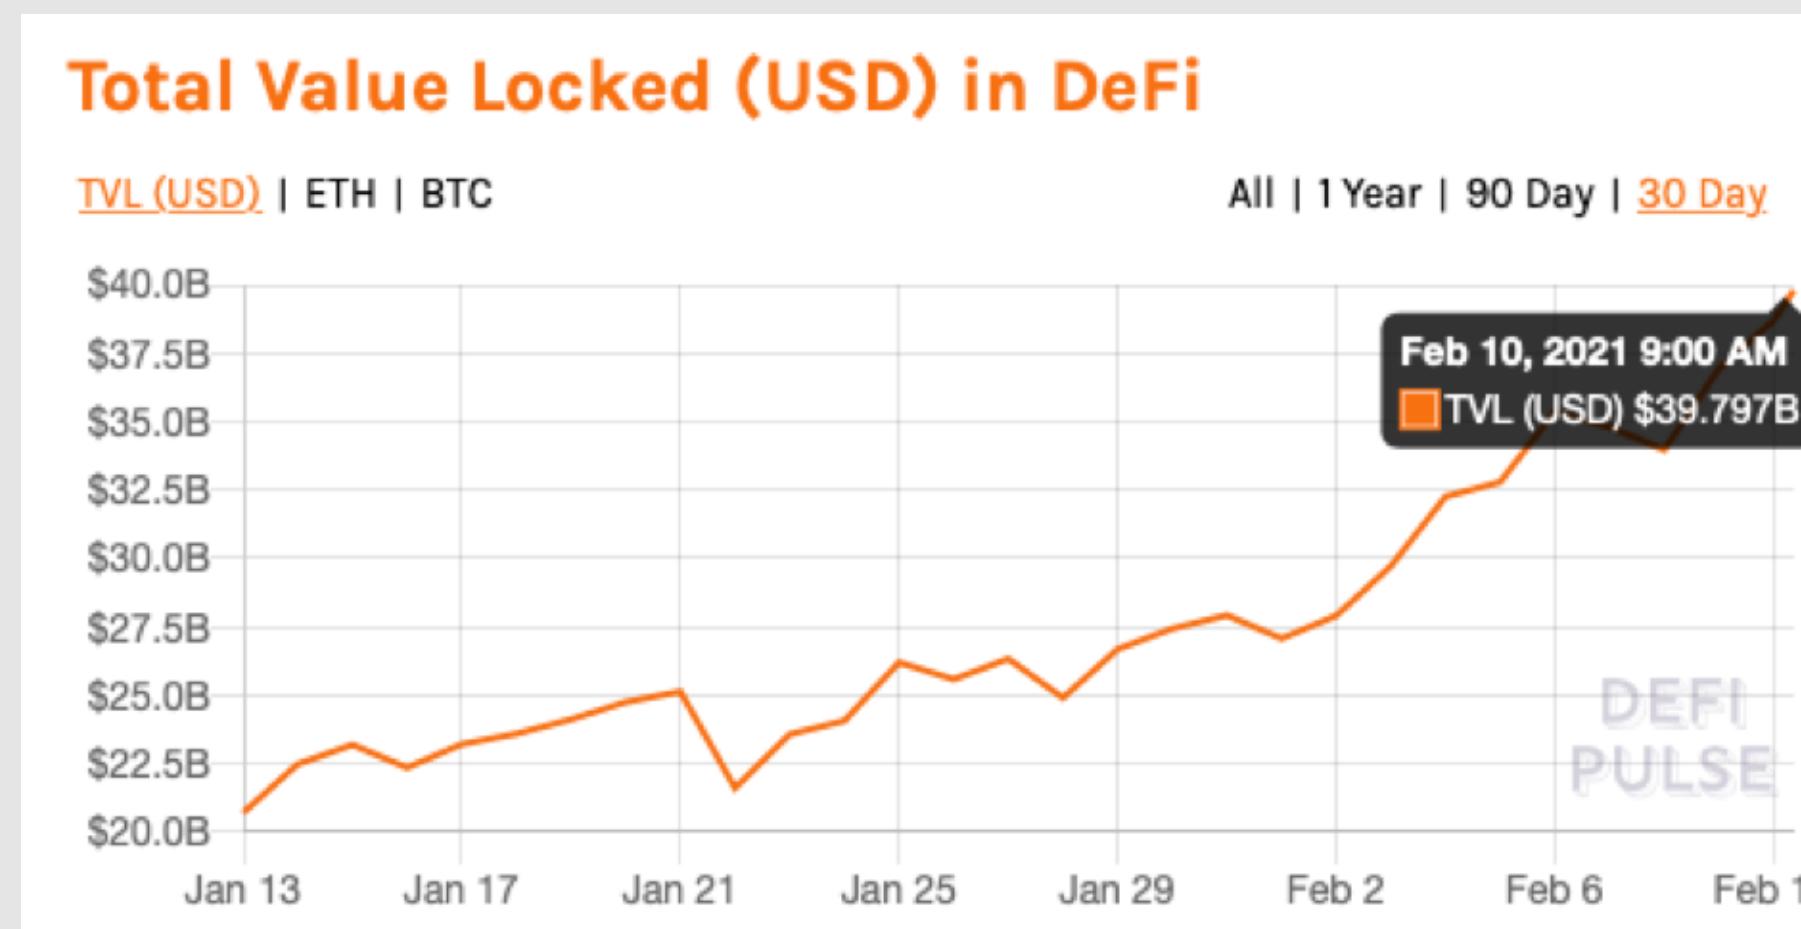

THREATS

- Social Engineering attacks on newer users in crypto.
- Loss of private keys by the user.
- Unwanted jurisdictional law changes.

DeFi Industry Growth

| DeFi projected to grow by 10X by 2022

Alternative Finance Solutions

Trading volumes on DEX have surged over 8000% in the first quarter of 2021 as compared to the previous year. Today, the TVL (Total Value Locked) figure exceeds the \$60 billion mark, and it peaked at over \$86 billion in mid-May, according to data from DeFi Pulse.

Token Sale

visit www.crosswise.finance to participate in the token sale.

Step 1: Whitelisting

visit www.crosswise.finance

Visit the website and click on the whitelisting form. Provide basic details and get KYC done by Blockpass.

Step 2: Wallet Setup

Connect Metamask to BSC

Please connect to the BSC network and only use the whitelisted wallet to send BUSD to the Crosswise contract address.

Step 3: Token Purchase & Distribution

Join the community & stay updated.

Token distribution details will be shared in the community after TGE.
